PSHE

Stoke Bishop Church of England Primary School

Believing it's Possible

PSHE (Personal, Social and Health Education) is an integral and key aspect of the teaching, learning and ethos at our school. Our PSHE curriculum is designed to ensure the children are taught the knowledge and life skills they will need to stay safe and develop healthy and supportive relationships. Growing up in a world that is not only continuingly changing but becoming an 'online' civilization, it is essential that we equip children with the necessary skills to become resilient, caring and respectful young people who show integrity and courage. At Stoke Bishop Primary School, we believe in providing our children with opportunities for them to learn about rights and responsibilities and appreciate what it means to be a member of a diverse society.
