Stoke Bishop Church of England Primary School

E, D & I

Believing it's Possible

At Stoke Bishop, we are committed to ensuring that all members of our school community are represented and treated equally and respectfully. Our school values are fundamental in ensuring we are preparing children to be compassionate members of society, who have strong moral integrity. Our 'Curriculum of Possibilities' encompasses a range of opportunities for children to learn, explore and reflect upon the diverse society in which they live. We understand that we are members of our school community but also part of a worldwide community. We foster a secure cultural awareness of others and develop a deep understanding of the wider world.
